ABOUT US

Live Dubai is one of the world's leading property investment and asset management company. Live Dubai opened its doors in 2003, helping clients acquire properties in the first of the freehold areas, Palm Jumeirah. We have grown from strength to strength in building the best team with lots of local knowledge, experience and insight into making sure your most important asset is well looked after.

A MESSAGE FROM THE DIRECTOR

Here at Live Dubai we have undergone new branding and a fresh look and feel to bring us into 2019. Given our growing team we wish to become one of the forefront Property Managers in Dubai.

From our perspective, property cycles are a nature of life and just as surely, after the storm comes calm. Dubai is an ever-growing city and we can see that the property market is finding support levels to soon show improvement in capital growth as well as income. With the Expo 2020 coming up, we hope that more people visit and get a taste of Dubai. They will realise that from a security standpoint, the amazing weather in the winter months, the thousands of food and beverage outlets with every choice of worldwide cuisine, the best spa experiences you will find in 5-star hotels, off-roading in the desert, spoiling your family in any one of the numerous theme parks,

or even seeing iconic displays of art at the Louvre Abu Dhabi, that Dubai is no longer a two day stop over, it's now a two week layover with lots to do and so much more to offer.

If you're considering retirement, Live Dubai will assist you with financial planning for your loved ones, working with lawyers and accountants and making use of the best practice for limiting tax payments. We have worked with numerous organisations and have first hand experience in dealing with these matters. The property lows in the market offer buying opportunities with small deposits and post completion payment plans. Property investments in Dubai are once again fair, attractive and buyable.

Whether considering a home for retirement, keeping a summer holiday home for the winter months, or a passive rental income, we recommend you keep Dubai at the forefront of your investment plans and one of our staff will be more than happy to talk it through with you.

We look at your property in depth to make sure it's of the highest standard so that it can compete with the new offerings entering the Dubai Rental Property Market. Leila and her team will be writing to you as and when your property becomes vacant or your unit has a renewal due. If you are thinking of selling, we are also happy to have a discussion with you, and either myself or one of the team will be more than happy to give you a free consultation. Your investment property is probably one of your most valuable assets and it's our job at Live Dubai to make sure it's well maintained, rented to a professional tenant and looked after, as if it were our own. If there's anything else you need, my team and I will be happy to assist you.

We thank you for your business and are at your service.

Warm Regards,

Sajjad Hoque (Managing Director) and the Live Dubai team
